IAU Symposium No. 375 (IAU S375)

The Multimessenger Chakra of Blazar Jets

Kathmandu, Nepal, December 5-9 2022

IAU Grant Allocation Notification

Dear Po-Chih Hsu

Following the recommendations of the Scientific Organising Committee (SOC) of the above IAU Symposium, IAU grants are being awarded to 25 participants from 12 countries. Since there were more applications from qualified scientists than funds available, the allocation of IAU grants has been a difficult process, and in most cases only partial funding could be awarded.

I am delighted to inform you that the International Astronomical Union has allocated €250 for your participation in IAU S375. The IAU will transfer your grant to the organizer, Dr. Yannis Liodakis, and it will be given to you upon your arrival and registration at the Symposium and after you have signed a receipt for the grant. Note that the IAU grant amount is final, and any additional funding should be sought from other sources.

Please inform the organizers at your earliest convenience, via e-mail to yannis.liodakis@utu.fi, whether you will accept the above IAU grant. If for some unfortunate reason you will not be able to participate in the symposium, then the IAU, through the SOC, will attempt to re-allocate the grant to another candidate as soon as possible.

We encourage you to make travel arrangements as early as possible. Please check whether you require a visa and start the visa application process now if you have not yet already done so. Invitation letters, or special visa documents, if required, should be sought from the organizers, not from the IAU.

You should also make sure that you carry adequate medical insurance when abroad.

Wishing you a very successful Symposium,
Yours sincerely

Professor Diana Worrall
